Reimagining Your Enterprise's Journey to Cloud

Accelerate your enterprise cloud journey with
Oracle solutions by LTIMindtree.

Introduction

As part of our 'Journey to Cloud' offering, we are partnering with enterprises to reimagine their businesses using Oracle cloud applications and technologies. LTIMindtree and Oracle have built a growing, two-decades-long partnership to maximize value for clients and end customers.

Our offering portfolio on Oracle, enables enterprises to reimagine their business process and redesign user journeys for the digital era. We are specialists in Oracle ERP and provide an innovative Oracle Cloud Infrastructure (OCI) offering, Journey to Cloud powered by our Infinity platform to move legacy workloads to the cloud. Ensuring that there is no impact on the business while the migration is ongoing.

Business Problem

A recent survey summarized that across the globe, end-user spending on public cloud services is forecasted to grow by 20.4% in 2022 to total USD 494.7 billion – up from USD 410.9 billion in 2021. In 2023, end-user spending to reach nearly USD 600 billion (Gartner). The key driving factor for this growth is the Covid-19 pandemic, which has triggered a sudden shuffle in the market.

Consequently, it is vital for organizations to seamlessly connect their front-office, middle-office, and back-office systems with the power of the cloud, data, and intelligent technologies. However, migration of on-premises data and applications to the cloud is a challenging task and needs proper planning and technology for smooth transitions. Here, cloud service providers play an integral role in ensuring cloud migration initiatives are in line with the various business goals.

Our Solution

We are the specialists in Oracle ERP and look at the migration of applications to the cloud as an important step to realizing full-scale benefits of functionality enhancers and digital enablers of the Oracle cloud. Our Journey to Cloud offering has helped organizations fast-track their cloud journey to OCI.

With an innovative platform, LTIMindtree offers to move complex workloads (Oracle JD Edwards, Oracle E-Business Suite and more) to the cloud, with minimum risk, shortest time, and quicker ROI. With the right tools, you can accelerate the migration of infrastructure to the desired cloud, thereby reducing the overall turnaround time by 40% and delivering 'certainty of outcome'.

Our Assets include:

07 Tools for Assessments

15 Tools for Migration

03 Tools for Validation

150 Solutions for Digitization

06 Tools for Support

Why LTIMindtree

Our proven cloud transformation capabilities provide business agility to the adaptability of SaaS, future-ready architecture and other benefits mentioned below:

ROI

- Quick ROI with progressive cost reduction
- Progressively reducing support cost
- 100+ proprietary tools to migrate on-premises data

Accelerated

- Migrate within 20 to 100 Days
- Zero downtime on a weekday
- 250+ automation solutions enabling touchless business operations
- Robust Enclose and Infinity platforms to fast-track the 'Journey to Cloud'

Source-Agnostic

- Migrate to the cloud from anywhere
- Migrate to the cloud from any platform
- Oracle Cloud Experience Theatre to decide the right approach
