Simplifying Cloud Migration with LTIMindtree's Cloud Boost Capabilities

Introduction

Enterprises are embracing a cloud-first approach to transform themselves due to advantages such as scalability, cost-effectiveness, and the potential for innovation. LTIMindtree has proven cloud transformation capabilities that help enterprises in this digital journey. Towards this, 'Cloud Boost' is an end-to-end solution for Oracle Cloud Infrastructure (OCI) migration, enabling organizations to unlock their full potential. Cloud Boost facilitates fixed expenses and foreseeable procedures, guaranteeing timely and cost-effective service delivery, in turn enhancing customer experience and fostering recurring business.

Business Problems

Businesses face challenges due to:

Vulnerabilities in legacy environments

The lack of one-stop vendors for comprehensive migration

Evolving compliance regulations

The struggle to choose suitable cloud platforms for workloads

Uncontrolled cloud utilization costs

Ensuring business continuity post-migration

LTIMindtree Solution

Cloud Boost combines Oracle's cloud services with our extensive expertise to ensure end-to-end ownership, flexible timelines, and post-migration support.

Our offerings include:

Assessment Pack

Ensures digital discovery of the on-premises landscape to identify potential migration challenges and opportunities.

Landing Zone Build

Provides a preconfigured cloud environment as a foundation for the migration process.

Infrastructure, Apps & Non-oracle Databases (DB)

Enables organizations to migrate their non-Oracle databases and applications to the cloud.

Infrastructure & Oracle DB

Focuses on migrating Oracle databases and applications to the cloud.

Oracle Apps & Oracle DB migration

Offers a solution for migrating Oracle JD Edwards (JDE), E-Business Suite (EBS), and PeopleSoft to the cloud.

Security & Identity

Provides a comprehensive security solution comprising identity and access management, network security, and data encryption.

Support & Governance

Enables proactive and predictive management of multi-cloud applications, data, and infrastructure, coupled with FinOps, cost optimization, and sustainability, within the cloud.

Benefits

Business agility for the adaptability of Software-as-a-Service (SaaS)

Future ready architecture with ~30% increase in performance

Optimized organizational spending with ~30% reduction in Total Cost of Ownership (TCO)

Why LTIMindtree?

LTIMindtree's Cloud Boost offers end-to-end ownership of migrating to OCI, combined with holistic testing of applications to ensure business continuity and zero disruption post-migration. Other important features include a flexible migration project timeline to meet business requirements, complete coverage for cloud solutions, and post-go-live support.

Conclusion

LTIMindtree embraces the limitless possibilities of technology with comprehensive IT services and solutions that help empower your business to thrive in this digital age. While our core strengths lie in deep industry domains, the unmatched functional expertise that we possess enables us to deliver agile outcomes. With an extensive portfolio for Oracle, we are committed to helping businesses reimagine their business processes.

Success Story

LTIMindtree successfully migrated JD Edwards to Oracle Cloud within the shortest timeframe for a US-based manufacturer of photonic switches. This transition had zero impact on business continuity and helped resolve the challenge of high opex.
